Skills

Languages - JavaScript, TypeScript, HTML, CSS, SQL
Database - MongoDB, PostgreSQL | **Other** - RESTful Routing, JSON API
Libraries & Frameworks React, Bootstrap, Material-UI, Node.js, Express, Mongoose

Software Development Projects   November 2022 - Present

Bitconnect 4 -
- Utilized HTML, CSS, and JavaScript to create a fully-functional game.
- Created a web application with art, sounds, and animations styled using CSS3 flexbox layouts.

Cityscape Social App -
- Made RESTful API fetch calls to an Express, MongoDB, Node.js backend handling all create, read, update, delete (CRUD) operations, and tested all backend routes during development using Postman.
- Used Mongoose to define schemas for MongoDB collections.
- Implemented ES6 tagged template literals with styled-components along CSS3 to provide style and flexbox layout.

Pix -
- Developed a responsive web application using React, JavaScript, and MongoDB for data storage.
- Led the project as a UX designer, creating wireframes, mockups, and prototypes to ensure a user-friendly interface and streamlined navigation.
- Implemented user authentication and authorization with secure password hashing and token-based authorization.

Tic Tac Toe -
- Implementing TypeScript to ensure type safety and enhance maintainability.
- Separating the game board into multiple components, including the board, the square, and the status
- .Implementing CSS to style the game board and its components.
